SUMMARY

I am a post-graduate student interested in backend development, cloud computing, AI integration, and automation. I prefer developing end-to-end applications by integrating APIs, databases, authentication, and modern web technologies. My projects focus on building practical, scalable, and maintainable solutions that solve real-world problems while delivering reliable and intuitive user experiences.

WORK EXPERIENCE AND EDUCATION

DeltaSoft Solutions Pvt Ltd	Kochi, Kerala
Full Stack Developer – Internship	May 2026 – July 2026
- Developed and maintained full-stack web applications using React.js, Node.js, Express.js, and MySQL, implementing RESTful APIs and database integration. - Integrated AI services, JWT authentication, and third-party APIs to build secure, scalable, and user-centric web solutions.	
Mar Athanasius College Of Engineering, Kothamangalam	Kothamangalam, Kerala
Master of Computer Applications – KTU CGPA –7.32	Expected May 2027
CMS College of Science And Commerce	Coimbatore, Tamil Nadu
Bachelor of Computer Applications – Bharathiar University CGPA –8.11	2022–2025
Alphonsa Higher Secondary School	Kozhikode, Kerala
Grade 12 th – CBSE 82.4%	2021
Saint Joseph’s High School	Solapur, Maharashtra
Grade 10 th – CBSE 87.4%	2019

PROJECTS

- DioG-Lite |Javascript, NodeJs, Express, Multer, Google API, Leaflet**
- Developed an AI-powered full-stack web application using React, Node.js, Express.js, and MySQL for preliminary skin disease analysis.
 - Integrated Google Gemini AI, JWT authentication, REST APIs, and database management for secure diagnosis and user history.
 - Implemented location-based doctor recommendations and hospital mapping using Leaflet, OpenStreetMap, and OSRM.
- IRIS | Telegram Bot, Python, SQL Database, Cloud Computing, REST APIs, NLP**
- Developed a cloud-based academic resource retrieval system using Python, SQL, and NLP to simplify access to study materials through a Telegram bot.
 - Implemented natural language query processing, resource categorization, and automated retrieval of notes, question papers, and academic resources.
 - Designed a scalable cloud-backed architecture integrating database management, bot automation, and NLP for efficient academic resource delivery.

TECHNICAL SKILLS	SOFT SKILLS
Programming Languages: Python, JavaScript, SQL Frontend: React.js, CSS, Bootstrap Backend: Node.js, Express.js, JWT, REST APIs Database: MySQL, PostgreSQL Tools: VS Code, Postman, PyQt, Tkinter, FFmpeg, Git	Languages: English, Malayalam, Hindi, Tamil Analytical Thinking Team Collaboration Adaptability Attention to Detail Self-Learning
